

AREA

A DEFINITION

Definition Area

The **area** of a shape is the amount of space it covers on a flat surface. We measure it in square units, like square centimeters or square meters.

To find the area, imagine covering the shape with small squares, like tiles on a floor. Count how many squares fit inside the shape.

Ex: Find the area of the red shape:

Answer: To find the area, we count the number of unit squares inside the shape.

The area is 4 square units.
