C MAP

Definition **Map**

A **map** is a picture that shows us a place, like a park or a treasure island. It helps us see where things are, like trees, paths, or a treasure chest!
Ex:

D GRID

Definition Grid

On a map, a **grid** helps us locate things. Each square on the grid has a name.

- The first letter indicates the column and is read on the vertical axis.

- The number indicates the row and is read on the horizontal axis.

Ex:

The treasure is in square C2.
