

# PROBABILITY

## A DEFINITION

### Definition Chance

The **chance** tells us how likely something is to happen.

- **Impossible:** It can't happen.  
*Example: Riding a dinosaur.*
- **Less likely:** It probably won't happen.  
*Example: Rolling a die and getting a 3.*
- **Even chance:** It has the same chance to happen or not.  
*Example: Tossing a coin and getting head.*
- **Most likely:** It will probably happen.  
*Example: Smiling at school today.*
- **Certain:** It will happen.  
*Example: The sun will rise tomorrow.*
