

PROBABILITY

A DEFINITION

Definition Chance

The **chance** tells us how likely something is to happen.

- **Impossible:** It can't happen.
Example: Riding a dinosaur.
- **Less likely:** It probably won't happen.
Example: Rolling a die and getting a 3.
- **Even chance:** It has the same chance to happen or not.
Example: Tossing a coin and getting head.
- **Most likely:** It will probably happen.
Example: Smiling at school today.
- **Certain:** It will happen.
Example: The sun will rise tomorrow.
